

USPS 2019, June 23rd Release

Hello everyone!

Let's talk about "USPS 2019, June 23rd Release" this month.

USPS 2019, June 23rd Release :

1. The Postal Service will change the Priority Mail dimensional weight calculation based on the greater of the actual weight or the dimensional weight for Priority Mail for all Zones, including Local & 1-9, and dividing the cubic volume by a 166 divisor (formerly 194)
2. The Postal Service will add dimensional pricing for Priority Mail Express and Parcel Select to calculate postage based on the greater of the actual weight or the dimensional weight by dividing the cubic volume by a 166 divisor
3. International First –class will be allowed up to 15.994 oz., instead of up to 4 pounds.
